

Water heater NANTES

Open Chamber

Principais Características

- High Efficiency (Class A)
- Low level of NOx
- Solar function
- **Open chamber**
- Natural Circulation (type B11 bs)
- Electronic ignition
- Instantaneous DHW production
- 11 L capacity (22 kW)
- Total electronic control
- Various protection functions
- Self-regulation summer/winter
- Continuous water flow even with low pressure

Descrição do Produto

New range of gas water heaters with open chamber, natural circulation and low level of NOx. It includes a new solar function which allows a smart connection with solar systems. Available with a 11 L capacity (22 kW) for natural gas or LPG.

The Zantia's water heaters respond to the latest European Energy-related products directive (ErP-EuP), which corresponds to a high level of efficiency and sustainability.
