

NARA NEO Pellet Boiler

Doméstica

Principais Características

- Automatic ignition;
- Automatic fan modulation;
- Display LCD with digital control;
- Automatic burner cleaning (Plus version);
- Manual cleaning of turbulators;
- Possibility of connecting an external chronothermostat;
- Efficient burn by powerful extractors;
- Internal Hourly Programming Function;
- Non-return flame safety;
- Includes hydraulic group: circulating pump, safety valve, anti-condensation valve, expansion vessel and trap;
- EN 303-5 "Class 5"

Descrição do Produto

New range of high efficiency pellet boilers with a performance above 91% of class 5, according to EN303-5. Constructed of high quality steel sheet and with powers 25 and 30kw. It includes Automatic Burner Cleaning (plus version). Recommendations: anti-condensation valve and AISI 316L Stainless Steel Chimney.
